Re: Permit #DE 0000299
Discharge 001

This letter is to follow up the 24 hour phone verification with your office that occurred on June 1, 2007 concerning the the daily average flow for the month of May, 2007. Per the notification requirements of Part II, Section A.2.(b) of the referenced permit we report the following:

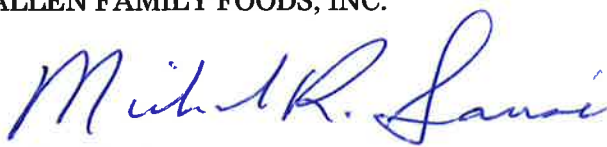

Allen's - Harbeson 001 - Final Effluent Flow

Sample Dates	Parameter	Results Reported
05-01-07 - 05-31-07	Daily Average Flow	1.27 MGD

A total of 35,521,086 gallons was treated in May with 28 days of flow discharged. The average flow per day was 1.268610 or 1.27 rounded. Water usage in the plant was up for the month of May in the processing plant and this matter will be investigated to ensure water conservation in the future.

If you should have any questions, please do not hesitate to contact me at (302) 684-1640, Ext. 184.

Respectfully submitted,
